---

*Recently graduated from technical high school, but not lacking in skills. I am very capable in any aspect of programming, and even if I don't have experience in a specific area, I can easily adapt. After all, it's just logic and learning a few new concepts. I am currently training in AI.*

## PROFESSIONAL EXPERIENCE

---

### COOPTEBA

FrontEnd Developer

**Buenos aires, Argentina**

*June 2024–December 2024*

- I developed a unified platform of components and tools for the efficient management of information from the company's various construction sites.
- Implemented API management in the FrontEnd for file upload and download.
- Built the tool for managing partner tokens during login to the website.
- The program was designed in the most user-friendly way possible for the cooperative members, as most of them are older adults with limited interaction with technology.
- This project won the Originality and Innovation Award at the ExpoProyecto 2024 organized by the "Universidad Nacional de La Matanza"

## EDUCATION

---

### E.E.S.T N°6 "CHACABUCO MORÓN"

Programming Technician

Graduated with over 300 hours of professional practice

**Buenos Aires, Argentina**

*December 2024*

- I have trained in programming at this school, starting with Python, and then moving on to C++, PHP, JavaScript, MySQL, HTML, and CSS. Later, during my professional internships, I specialized in FrontEnd with the ReactJS Framework and Bootstrap, along with using tools like Github and Postman to test the API requests we use.

### UNIVERSIDAD DE PALERMO

Bachelor of Engineering in Artificial Intelligence

Currently studying

**CABA, Argentina**

*Currently*

- Currently, I am fascinated by everything related to AI, which is why I am studying to work in this field at this university

## HARD SKILLS

## SOFT SKILLS

---

- Git / GitHub
- ReactJS
- JavaScript

- Commitment
- Flexibility
- Teamwork

- Php
- HTML / CSS
- Python
- Bootstrap
- MySQL
- Postman
- Advanced English

- Constant and independent learning
- Positive attitude towards goals and challenges
- Empathy
